SUMMARY

Technical professional with experience in software development and 7+ years mentoring developers in full-stack environments. Strong background in debugging, troubleshooting, and identifying edge-case failures across frontend, backend, and database systems. Known for a methodical, systems-oriented approach to problem solving and clear technical communication. Seeking part-time or contract roles in QA, software testing, or technical analysis.

TECHNICAL SKILLS

Testing & Debugging: Manual Testing, Debugging, Test Case Validation, Defect Identification

Languages: JavaScript, TypeScript, Python, HTML, CSS

Frameworks & Tools: React, Node.js, Express, Git, REST APIs

Databases: MySQL, PostgreSQL, MongoDB, Firebase

Concepts: Agile/Scrum, MVC Architecture, API Integration, Object-Oriented Programming

EXPERIENCE

Software Development Teaching Assistant

EdX / Orlando, FL / September 2019 - March 2025

- Debugged and guided development of 100+ full-stack web applications (MERN stack), identifying issues across frontend, backend, and database layers
- Diagnosed and resolved common and edge-case bugs in JavaScript, React, Node.js, and SQL-based systems
- Validated application functionality against expected behavior and project requirements
- Mentored students in troubleshooting techniques, improving their ability to isolate root causes and fix defects

Software Engineering Intern

Lockheed Martin / Orlando, FL / July 2018 - August 2019

- Developed and maintained a C# application used for production scheduling within the Optics Department
- Identified and resolved software defects, improving application stability and usability
- Migrated legacy WPF application to a web-based service using C# and ASP.NET
- Assisted in transitioning data from SQL databases to SAP systems, ensuring data integrity and consistency

Family Caregiver

Private Family / Mount Dora, FL / January 2025 - March 2026

- Managed caregiving logistics, medical coordination, financial administration, household responsibilities, and estate-related matters for a family member

EDUCATION

Associate in Arts (A.A.), Computer Science

Valencia College - Orlando, FL

- Member, Phi Theta Kappa Honor Society

Full-Stack Web Development Certificate

University of Central Florida - Orlando, FL

- Completed intensive 24-week MERN stack program
- Technologies: JavaScript, React, Node.js, SQL, MongoDB
